

## Our Greatest Wish

..... and maybe yours too,  
is that one day every  
animal that is born will be  
a wanted animal. Can you  
imagine a day when there  
could be a shortage of  
animals? Shelters and  
rescues would have to  
close for lack of clients.  
Creatures would be loved  
and cherished and valued  
for their entire lives. Not  
cast off in a whim but al-  
lowed to live a life filled  
with respect, love and joy.  
Please join with us as we  
try to make a difference,  
one life at a time, one day  
at a time....

## Mission/Vision Statement

---

To pool our experience, expertise, ideas, programs, needs, wants, capabilities, cooperation and love for what

If we can't answer your question, we'll find someone who can!

we are doing to better the lot of the animals that we oversee and strive towards lowering euthanasia, alleviate suffering, neglect and abuse, find solutions to common animal related

problems (domestic pets, wildlife and farm or exotic animals), and to prevent the further reproduction of any 'surplus' companion animals in the state of New York.

To bring all sheltering facilities, sanctuaries, Animal and Dog Control Officers, Rescue Groups, volunteers, veterinarians, animal handlers, caregivers, and other such agencies/groups together for the benefit of animal welfare; by meeting monthly on a continuing basis to discuss and make efforts to find solutions for common problems that all of us experience.

To find ways to increase funds to all of us to better enable us to enrich programs and/or implement them, to improve facilities, expand service, and offer more to the community regarding animal care, education and services.

To support one another in many ways; by keeping communication lines open, assist each other in case of emergency, i.e., unexpected overload of animals, share ideas and resources, possibly connect all of us regarding large scale fund raising endeavors, adoption programs ("trading" animals or transporting unique animal to a permanent home if one is difficult to find for the agency), or convention type events in one central location.

By one central office to keep us all connected, advise all agencies of conditions or events that affect us all, keep a lost/found system for animals, advise to potential collectors or abusers on a statewide scale, to keep each other in touch with animal related problems on a daily basis by the use of our Web bulletin board.

If this sounds like a group of interest to you, please contact us by phone or email so that we can get you signed up and a packet out in the mail. Our monthly meetings are usually the last Wednesday of each month at Spring Farm CARES. The tranquil atmosphere at Spring Farm CARES is a welcomed respite from the hustle and bustle for your staff and volunteers. Everyone comes away renewed and refreshed. We are all trying to accomplish the same end goal and should join together to maximize our efforts. Our two hour long meetings begin at 1pm and feature speakers and topics of interest whether you are an individual or staff of a humane organization.

We think you'll find our Web based board an extremely useful tool with its daily updates ranging on topics from transportation of animals at risk to legislative issues. Health issues, fundraising, and cooperative ventures are some other topics. We look forward to working with you and your organization in the near future.
